## School Description

Cuyama Elementary is a rural school serving students from a forty mile radius, covering three counties. It is located in the scenic Cuyama Valley, educating kindergarten through eighth grade students taught by nine highly qualified teachers, one intervention teacher, and one special education teacher. Four instructional assistants work closely with teachers to address student needs.

Cuyama Elementary School is dedicated to the ideals of academic excellence and to the personal and social development of our students. Academic integrity is fostered in a climate which respects the unique needs of each individual. Our students develop a positive self-image, respect for the rights of others, and the ability to communicate effectively, think critically, meet challenges, and accept responsibility. Cuyama has the following expectations consistently reinforced in all classrooms and areas of the school: Be Responsible, Excel Together, Actively Participate, Respect All, and Safety First.

Our staff is continually looking to meet the needs of our students, forty-six percent of whom are English Learners, and eighty-two percent who are socioeconomically disadvantaged. Meeting those particular students' needs have been a focus of staff professional development. One of Cuyama Elementary's greatest strengths is the small class sizes. Students are respected learners at our school and develop personal connections with staff.

Family involvement is increasing at Cuyama Elementary. Many parents are active members in School Site Council, the English Learners Advisory Committee, and the Parent's Club. There is a high participation rate in parent-teacher conferences and campus events. We are continually seeking avenues to encourage more family support.

## About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at http://www.cde.ca.gov/ta/ac/sa/.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at http://www.cde.ca.gov/fg/aa/lc/.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

## A. Conditions of Learning

## State Priority: Basic

The SARC provides the following information relevant to the Basic State Priority (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

| Teacher Credentials |  |  |  |

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2016-17)
We chose our textbooks form lists that have already been approved by state education officials. For many years, panels of scholars have decided what California students should learn and be able to do. Their decisions are known as the California Content Standards, and they apply to all public schools in the state. Since 2010, a number of states across the nation have adopted the same standards for English and math. These standards are called the Common Core State Standards (CCSS). Having the same standards helps all students get a good education, even if they change schools or move to a different state. Teachers, parents, and education experts designed the standards to prepare students for success in college and the workplace.The textbooks we use and the tests we give are based on these content standards, and we expect our teachers to be firmly focused on them. Policy experts, researchers and educators consider our state's standards to be among the most rigorous and challenging in the nation.

You can find the content standards for each subject at each grade level on the Web site of the California Department of Education (CDE).

The main fact about textbooks that the Williams legislation calls for described whether schools have enough books in core classes for all students. The law also asks districts to reveal whether those books are presenting what the California content standards calls for. This information is far more meaningful when viewed along with the more detailed description of textbooks contained in our School Accountability Report Card (SARC). There you'll find the names of the textbooks used in our core classes, their dates of publication, the names of the firms that published them, and more.

## School Facility Conditions and Planned Improvements (Most Recent Year)

Cuyama Elementary School is situated on 20 acres, and includes a large grassy playground and fifteen regular classrooms. A new science lab was completed and the school received a new roof and paint in 2003. Additionally, new doors were installed to meet handicapped regulations, and the fire alarm system has been upgraded. New playground equipment was installed for the upper grades in the spring of 2002 and new playground equipment was installed for the primary grades in the summer of 2013. There is a Head Start Pre-School program housed on campus. There is space for baseball, soccer, football, and track activities, as well as a cafeteria/auditorium for performance events.

Our school meets most or all of the standards for good repair, established by the Office of Public School Construction. If we have any deficiencies, they are not significant. We scored between 89 and 100 percent on the 15 categories of our evaluation, with an overall percentage of 97 .

## B. Pupil Outcomes

## State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

Science test results include CSTs, CMA, and CAPA in grades five, eight, and ten. The "Proficient or Advanced" is calculated by taking the total number of students who scored at Proficient or Advanced on the science assessment divided by the total number of students with valid scores. Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAAs divided by the total number of students who participated in both assessments. Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy. The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## C. Engagement

## State Priority: Parental Involvement

The SARC provides the following information relevant to the Parental Involvement State Priority (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

Opportunities for Parental Involvement (School Year 2016-17)
Parents have several excellent opportunities to participate in their student's education. Formal parent-teacher conferences are held annually, with informal conferences held as student needs arise. Parents may join the School Site Council (SSC), and the English Language Advisory Committee (ELAC). All parents are welcome at the six yearly meetings, and may contact the school office for dates. Cuyama Elementary School has an active Parent's Club which meets the last Wednesday of each month. In the 2015-2016 school year, Spanish speaking parents were invited to an English Learner Parent Night devoted to learning about the CELDT and social-emotional learning for their child. Parents are encouraged to be active participants in their child's education.

## State Priority: School Climate

The SARC provides the following information relevant to the School Climate State Priority (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

## School Safety Plan

A Site Emergency Plan (Revised May, 2011) is on file, and drills for earthquake and fire are held regularly. While we pride ourselves on our safe community, we ensure that emergency response procedures are in place. Faculty, staff, and students are trained to exit the school buildings safely. Teacher responsibilities regarding student safety are reviewed during each school year. Classified staff members are also trained to assist in case of an emergency. Staff is on duty and assigned to monitor all students both in classrooms and on the playground.

The safety of students and staff is the primary concern of Cuyama Elementary. The school is aware of and complies with laws and regulation regarding hazardous materials. Laboratory and chemical supplies are carefully housed, and their use is diligently monitored. A regularly scheduled maintenance program ensures classrooms, restrooms, and other facilities are kept in good condition.

## Professional Development provided for Teachers

During the 2013-2014 school year, teachers received training in Effective Instructional Practices with READ 180; Approaching the Common Core: Setting the Foundation for Literacy; English 3D Professional Learning; Designing and Implementing an Exemplary Transitional Kindergarten Program; Foundational Skills and Formative Assessment; Systematic ELD; using strategies for structured participation and use of technology; foundational skills, formative assessment, and academic registers; and using ADEPT to interpret results, monitor student progress and placement.

During the 2014-2016 school years, teachers are receiving Professional Development in Integrated and Designated ELD; English Language Arts (ELA)/ELD Framework; Progressions for Common Core Mathematics; Effective Instructional Practices; and Academic and Behavior Support Systems, Multi-tier System of Supports, Universal Screening and Progress Monitoring. During the 2015-2016 school year, teachers received training on Integrated and Designated ELD; Effective Instructional Practices, especially in the areas of ELA and Mathematics, and student collaboration. Student data, in particular CELDT test results, and Smarter Balanced results drove the type of training teachers received. In addition, teacher feedback was included in planning for professional development. Professional development was delivered in a variety of methods, including pre-service days, conferences, and grade level mentoring.

## DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at http://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

## Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
